INSTRUCTIONS FOR USE

A person may use a suspended product bearing a suspended label for the duration of the suspension according to the following instructions.

A suspended product may be used according to the instructions on the suspended label listed, **except** where the label directs use outdoors for control of mice, directs baits be placed in areas potentially accessible to non-target animals, pets or children without a tamper resistant bait station, directs use outdoors for rats without a tamper resistant bait station and/or more than 2 m from buildings, directs baits to be placed in burrows, and/or provides disposal instructions.

These instructions on the suspended labels must be replaced with the following instructions. If there appears to be a conflict between instructions on the suspended label and the instructions provided below, the user must follow the instructions provided in this notice.

All instructions where the label is contradictory to the instructions and the restraints listed above must not be followed from the date of suspension and are replaced by the instructions in this notice. A suspended product listed in this notice may be used according to the instructions in a current permit issued by the APVMA for use of that product.

DO NOT place bait stations outdoors for control of mice

DO NOT use in areas accessible to non-target animals, pets or children unless secured in a tamper resistant bait station.

DO NOT place bait outdoors unless it is secured in a tamper-resistant and weather-resistant bait station which is secured in place.

DO NOT place bait stations more than 2 meters from buildings

DO NOT apply this product directly into burrows.

DO NOT use the product continuously for more than 35 days without an evaluation of the state of the infestation and of the efficacy of the treatment.

Hazardous to wildlife. Search for and dispose of dead rodents and slugs/snails in the infested area at each visit to prevent secondary poisoning. In case slugs/snails are present, move bait station to another location within the rodent infested site, away from slugs/snails. Dispose of slugs/snails, dead rodents and uneaten bait in compliance with local, state or territory government regulations.

When using the product wear disposable gloves. During cleanup and disposal operations of bait and bait stations, wear disposable gloves. Wear disposable gloves when handling rodent carcasses. Wash clothes after performing re-handling activities

SUPPLY REQUIREMENT

A physical copy of these instructions must be supplied with products at both wholesale and retail.
